

Solar power for Indian Railways

**SPECIAL
CORRESPONDENT**

HYDERABAD

Fourth Partner Energy on Monday said it will implement almost 10 MWp of rooftop projects for the Indian Railways in Varanasi, Jabalpur and Gorakhpur. A company focused on financing, building and servicing rooftop solar projects, it would also undertake such projects for various Central govern-

ment establishments in Maharashtra, Karnataka, Telangana and Rajasthan.

The departments are to be electrified by Fourth Partner Energy as part of a 500 MWp tender issued by Solar Energy Corporation of India (SECI). Fourth Partner Energy plans to achieve 1 GWp of distributed solar assets under management by 2022.
