

FOURTH PARTNER ENERGY PARTNERS WITH META -- DEVELOPS 88 MWac of RENEWABLE ENERGY PROJECTS

Meta to purchase 100% of the environmental attributes from FPEL's solar and wind projects across Tamil Nadu, Maharashtra, Karnataka and Uttar Pradesh

New Delhi, June 10th

Fourth Partner Energy, India's leading integrated renewable energy solutions firm, announced a partnership with Meta supporting 88 MWac of renewable energy projects pan-India.

Under this arrangement, FPEL owns and operates the projects which include combined solar and wind capacity across Tamil Nadu, Karnataka, Maharashtra and Uttar Pradesh, while Meta purchases 100% of the environmental attributes from the projects.

Amanda Yang, Head of Clean and Renewable Energy at Meta said, *"These projects with Fourth Partner Energy represent a commitment to India's clean energy ecosystem, helping to bring new renewable energy capacity onto the grid and address Meta's value chain emissions in the region. This is consistent with our broader goal of matching our global operations with 100% clean and renewable energy."*

Vivek Subramanian, Co-Founder & ED at Fourth Partner Energy added, "This partnership with Meta highlights FPEL's expertise in delivering innovative, integrated renewable energy solutions to India's businesses. Corporates are increasingly keen to utilize clean energy across their Scope 2 and Scope 3 supply chains. This is where the complementary nature of solar and wind helps offer maximised renewables. We are excited to work with Meta and continue being corporate India's preferred Net Zero enablers."

Fourth Partner Energy has an operational capacity of 1.7 GW of wind and solar assets pan-India, with 3 GW under various stages of development and a portfolio target of 9 GW by 2031.
